D.P. Medical Systems Limited is committed to meeting the requirements of the European Union (Waste Electrical and Electronic Equipment) Regulations 2014. These Regulations require producers of electrical and electronic equipment to finance the takeback of WEEE resulting from products that we place on the Irish market. This helps us to ensure that WEEE is reused or recycled safely. In line with that commitment D.P. Medical Systems Limited will take back WEEE from you. Please contact us for details.

It's also very important to understand the role to play in ensuring that the WEEE is:

- Reused and recycled safely.
- In case the WEE is not returned to D.P. Medical Systems Ltd., end users should ensure that it is not disposed into the bin. The crossed out wheeled-bin symbol on the product reminds users not to dispose WEEE in the bin. It should be collected separately and sent for proper treatment. WEEE contains hazardous substances and if not managed and treated safely it can cause pollution and damage human health.

Chessington, 1<sup>st</sup> of April 2024
